

DCERN
Emergency Instruction Card
www.dcradio.org

In an emergency tune your FRS or GMRS radio to channel 1 (no privacy channel or subchannel)

My personal family channel and subchannel are:
Channel _____ Sub/Privacy _____

Print and cut. Give a DCERN wallet card to every member of your family.

The DC Emergency Radio Network is an alternate means of communication during an emergency.

If there's a power, telephone, cell phone or Internet failure, the DC Emergency Radio Network, DCERN, can keep you in touch with your neighbors, your family and officials.

DCERN uses Family Radio Service (FRS) and General Mobile Radio Service (GMRS) radios on channel 1.

DCERN suggests that you and your family select your own channel/privacy channel combination to use when you want to communicate just among yourselves. It's a good idea to use your FRS or GMRS radio on a regular basis. That way in an emergency you'll know how your radio operates – and that it works.

For more information, visit the DCERN website, www.dcradio.org.
